“Laminar XL Projection Screen”

Product Description:

Our projection screens are designed for displaying high resolution images via front projection, produced by high output DLP, LCD and DLA video/data projectors. The Laminar XL is motorized and is designed for wall mounted installation.

Highlighted Features:

- * Redesigned housing is now pentagonal and is a finished white. End caps and universal mounting brackets complete the unit.
- * Optional projected brackets provide a 6” clearance.
- * Ceiling Trim Kit is available and trims out the ceiling opening and attaches to housing end caps. Slot includes finished flange.
- * Integrated Low Voltage Control motor with 3 POS wall switch.
- * 1 year warranty.
