“Alpine XL Projection Screen”

Product Description:

Our projection screens are designed for displaying high resolution images via front projection, produced by high output DLP, LCD and DLA video/data projectors. The Alpine XL is motorized and is designed for ceiling mounted installation.

Highlighted Features:

- * Redesigned brackets that allow unlimited adjustment.
- * A pre-wired junction box inside the housing with a pre-drilled cable exit hole on top.
- * Ceiling mounted case offers a white flange around the perimeter to support ceiling tile or trims out a rough ceiling opening.
- * Bottom panel of the case forms a slot for fabric passage and is removable without tools.
- * UL approved for use in environmental air space.
- * 1 year warranty.
